

Candice Bangsund, CFA

Vice President and Portfolio Manager, Global Asset Allocation
Fiera Capital Corporation
Montréal, Québec

Candice Bangsund is Vice President and Portfolio Manager of Global Asset Allocation at Fiera Capital. She is a member of the Global Asset Allocation Committee, focusing on central banks and fundamental macro analysis while also actively participating in the development and communication of the firm's asset allocation strategy. Candice also serves as the global spokesperson for Fiera Capital relating to all economic and investment matters. Her career in the investment industry spans over 20 years, including several years as an investment research analyst for Franklin Templeton Investments. While there, Candice gained extensive experience in conducting global macroeconomic analysis focusing on asset classes, regions, sectors, commodities and currencies. She also conducted multi-manager fund research and analysis with a focus on Canadian and global equity asset classes. Candice joined Fiera Capital in 2012 upon its acquisition of Canadian Wealth Management, where she managed North American equity portfolios as well as the asset allocation decisions for private wealth clients. She joined the Fiera Capital Global Asset Allocation team in 2014. Candice obtained her chartered financial analyst (CFA) designation in 2009 and holds a bachelor of business administration (BBA) degree in finance from the University of Regina.
