Aegis Risk is a consultant and broker focused solely on medical stop loss and related risk management strategies. We seek coverage for self-funded employer benefit plans and partner directly with employers and plan sponsors, as well as other brokers and consultants.

Our in-depth knowledge of catastrophic medical claimants and their coverage solutions exceeds that of traditional benefits advisors. We obtain the greatest value in protection from this significant, organizational risk, while your primary broker or consultant remains focused on the rest. Our annual *Stop Loss Premium Survey* is also the industry's benchmark and further ensures our clients and partners have unequalled insights.

Contact us today to discuss our approach, including a complimentary, no-commitment review of your coverage.

Lilly is a medicine company turning science into healing to make life better for people around the world. We've been pioneering life-changing discoveries for 150 years, and today our medicines help tens of millions of people across the globe. Harnessing the power of biotechnology, chemistry and genetic medicine, our scientists are urgently advancing new discoveries to solve some of the world's most significant health challenges: redefining diabetes care; treating obesity and curtailing its most devastating long-term effects; advancing the fight against Alzheimer's disease; providing solutions to some of the most debilitating immune system disorders; and transforming the most difficult-to-treat cancers into manageable diseases. With each step toward a healthier world, we're motivated by one thing: making life better for millions more people. That includes delivering innovative clinical trials that reflect the diversity of our world and working to ensure our medicines are accessible and affordable.
